

# MARSTON UPDATE

## June 1st, 2020

HUGH DEAM  
Compiled by  
Donna Bennett  
Issue #150

### *We'll Meet Again*

Mention of green shoots are usually in astriction with the Spring, but this year any vestiges are attached to the Summer months, and even though we had to miss our regular Spring Bank Holiday Monday appointment at Chilton last week, there is every chance that our August Bank Holiday visit can take place so long as the R rate doesn't put a spike in things.

### **Back in the Day - Saturday 31 May 2008 - Morning Outing to Kirtlington and Tackley**

Methods rung: Stedman, Single Oxford and Grandsire Triples at Kirtlington, then Cambridge, St Clements and Little Bob at Tackley. It is 20 years since our first morning outing to Kirtlington and without a doubt numerous ringers from well beyond Marston have benefited greatly in their eight bell ringing from time spent on the ropes here since 2000. This particular morning yielded perceptible progression across half a dozen methods between the two towers, plus we had an inquisitive cat watching us gather for the group photo at Kirtlington. It should also be noted that Tackley has also proved an equal boon to our ringing practices and quarter peals since the late 1990s.

**Hugh's  
Photos -  
Any  
Requests?**

*We thought this was cool and worth a mention – Donna & Richard*  
May 16<sup>th</sup> - Liverpool Cathedral was lit up by a projection of colours, symbolising hope, solidarity and community to mark what would have been the city's 11th LightNight.  
[https://www.liverpoolcathedral.org.uk/43/section.aspx/37/liverpool\\_cathedral\\_was\\_lit](https://www.liverpoolcathedral.org.uk/43/section.aspx/37/liverpool_cathedral_was_lit)

Hugh has spent much of his spare time since March on trying to extensively agglomerate the archive of photos of Outing locations and some ringing related social events since the 1990s.  
**If there is a particular event that you would like us to revisit in Back in the Day please feel free to email Hugh.**
