## September 2nd, 2021

Issue #215

**On Saturday 21st August**, despite lashing rain and roadwork ridden A40, we managed to get six of our band over to South Leigh which enabled them to have a practice on all eight bells and reacquaint themselves with those numerous little clues to look for that would probably be covered by the heading "ropesight" (group photo right)

**Sunday 22<sup>nd</sup> August** morning before service we rang our second successful quarter peal in the tower since returning to action.

### **Treble Stay**

During his repair of the sound control box mesh last week Richard also checked the stays for all the bells and discovered a crack in the treble stay. Pleased to report that a new stay has now been fitted courtesy of White's. (photo right)
