WE'RE GAINING MOMENTUM

Our practices, which have been on Wednesday and Monday evenings since resumption, will be returning primarily to Friday night from this week (although starting at 7.00pm) as our regrouping continues to gain momentum. We have a raft of quarter peals arranged, a visiting band booked in and a growing number of reciprocal ringing visits planned with other towers for the "Meet Up Again Month" that is August.

Back in the Day **Sunday 24th July 2005** **North Aston, St Mary**

The church here is always a splendid location no matter what the elements bring forth, with the manor house standing alongside the tower, within touching distance should you put your arm out of the ringing chamber window (as you can visualize in the photo). On this day we were pleased to be joined by a visiting German ringer Bettina Stohr, who was staying in Oxford for a limited period before returning to Germany.

A to Z Miscellany

H

Hook Norton's original fire pump now resides in the church.
