### EXTRA! MARSTON UPDATE READ ALL ABOUT IT

The Marston Updates are now archived and available to view on the Old Marston Parish Council website.

[www.oldmarston-pc.gov.uk](http://www.oldmarston-pc.gov.uk)

In the Community section, click on the link to site of *Old Marston bellringers*. Then click on *Newsletters*.

*Our grateful thanks to council chairman Duncan Hatfield for his time and effort in setting up the link and collating the Updates.*

*As we dare to dream that we may get the chance to resume venturing out to new and established ringing destinations before the nights have drawn in again, it is worth considering that these occasions also provide the opportunity to discover quirky and unique aspects of the country as an added bonus to the ringing.*

*From our Saturday 2 April 2016 Outing just east of Blockley you can see what is possibly a Tardis near Aston Magna in Gloucestershire.*

*From our Saturday 2 March 2019 Outing just north of our first tower Kingston St Michael you can see the hamlet of Tiddlywink on the Wiltshire/Gloucestershire boundary.*

TIDDLEYWINK  
Please drive carefully

### Back in the Day - Saturday 22nd February 2014

American shoppers normally have their "Super Saturday" a week before Christmas, and of course there was the unforgettable "Super Saturday" of the London Olympics of 2012. In its own modest way this was our ringing equivalent, with an impressive grand total of 29 ringers from numerous towers visiting one or more of the three towers booked in two Branches during the day - Kidlington at 10.30am, Cassington at 3.00pm and finishing at Freeland from 4.45pm. During what totalled nearly four hours of ringing we were able to provide the opportunity for just about all abilities, with a dozen different methods spread across Major, Triples, Minor and Doubles.
